

SVS103M 3" TFT LCD Digital Monitor

The 3" Mini TFT LCD colour monitor with a suction cup mounting bracket is designed for windscreen or dash mounting and can be activated when the vehicle is placed in reverse or ignition is on. The 103 series is ideal for, but not limited to, any vehicles that has limited space for installation. The 103 system has a dual camera input and allows the user to change between camera one and camera two with a simple push of a button. The 103 system has a range of compatible cameras and is available in a variety of kit options for all applications.
