

## SVS Premium Range

The SVS Premium Range is designed and manufactured to the highest standards using the highest quality and most advanced manufacturing processes available. Premium Range products are heavy duty with strong mounting hardware designed to withstand all commercial and industrial environments making them the standout choice within the commercial and industrial category. The Premium Range is the ultimate choice for reliability and flexibility within the Australian market as our extensive range of cameras, monitors and accessories make achieving safety through vision an easy task for all applications. To find out more about our Premium Range of products contact one of our vision specialists on 1300 147 455 today.

### Safety Through Vision

## SVS203M 3.5" H/Duty TFT LCD Digital Monitor

With a 3.5" LCD TFT digital screen that comes with a heavy duty suction cup mount the single camera 203 model is ideal for all industrial and commercial applications. The 203 has a built in speaker to allow the operator to hear any hazards or to receive directions through an audio enabled camera making it an ideal solution for on-site operation. The high resolution screen is equipped with an automatic brightness sensor to ensure high quality images regardless of the operating environment and a range of compatible cameras gives the user great flexibility when setting up a vision system.
