

# SVS - 204 Premium Range/Single or Dual Camera and 1 AV Input

4" LCD Colour mirror monitor that attaches to most vehicles rear view mirrors. This product can have 2 camera inputs and 1 AV input. It is also part of our Premium range so quality is very high. SVS Australia was the first company to import and sell this product in Australia and our first customer was the Melbourne Ambulance Service. Other states Ambulance services soon followed and this product became our best moving product. This product has also been very popular with Horse Float owners.
