

SVS100VPS.MIC Microwave Sensor Kit With Audible and Visual Overlay

Product Information

New generation Microwave sensor system has increased efficiency and only detects Moving object. Can even have sensor behind plastic bumpers and still function. Reliable performance in harsh conditions, High Temperatures, Snow, Rain, Dust and Fog. Factory set long detection range 0.1 - 20m with high accuracy. Output Audio and/or Visual Overlay on Screen when Camera added to kit.

Features

- **MultiVolt 10-32vDC**
- **Visual/Audio Output**
- **IP67**
- **5 Zone Visual/Audio Output**
- **1 Trigger Input & Output**
- **Single Sensor kit**

Specifications

Sensor Type	Microwave
Frequency	24.000 - 24.200 GHz
Detection Angle	Horizontal 100 Deg Vertical 40 Deg
Voltage	9-32VDC
Transmitter Type	FMCW
Detection Zones	5
Reaction Time	<= 0.5 Seconds
Sensor Dimensions	70.5 x 39.5 x 22.5mm
