Product Information

High Mounted Stop light with integrated Reverse Camera are universal type 2 mount - means you can screw them on from the front without recessing the units. The SVS cameras are simple to install and intergrate with the SVS 100 Series of monitors and accessories. These high mount Stop Light Cameras feature LED Lights with CE certification (SVS100SL2 is without Light). Cameras are adjustable within the mount (SVS100SL5 fixed camera) and swivel to suit specific directional view and each have 6 x IR LED's to improve low light vision with 10m range while providing a wide field of view with 170 degrees of vision. SVS100SL5 Without IR LED's and has standard 130 degree view

Features

- IP68
- 170degree Viewing Angle
- Recess Mount style (type 2)
- Inbuilt Camera with 6 x IR LED's
