

Safety Through Vision

SVS100VPS.HD

100 Long Range Visual Reverse Sensor System

Serves

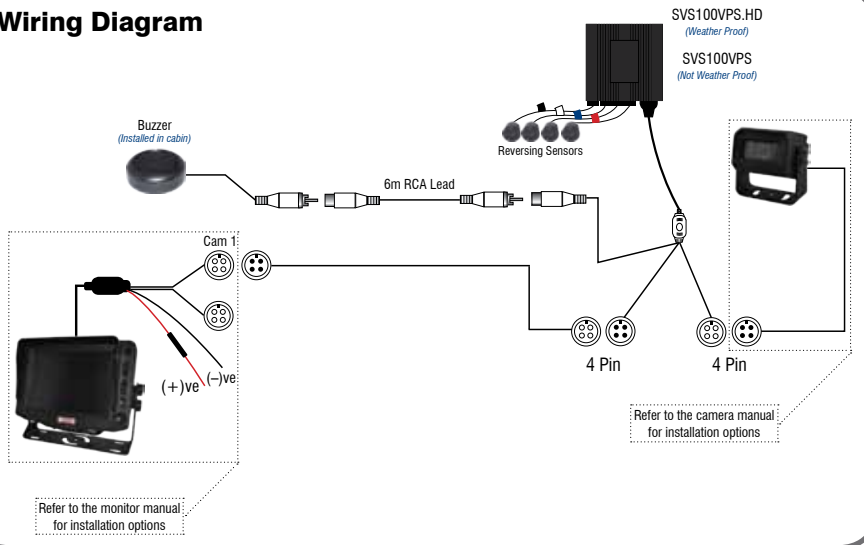

Features

- Weather proof
- Long range 5m industrial sensors
- Visually intergratable into reverse camera systems

Kit includes:

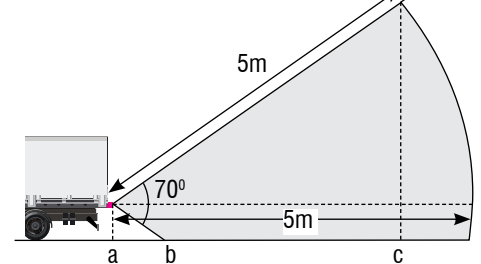

- Control box
- Buzzer
- 4 x long range sensors
- Connection cable
- User manual

Wiring Diagram

Probable Detection

(Preferred mounting height 1m)

- Horizontal Distance from a to b = mounting height (mm) x 1.42mm
- Vertical Distance from c to d = mounting height (mm) plus 2850mm

Details

- Industrial quality reverse sensor system
- Visual integration reverse camera system
- No need for a separate control box when requiring visual and audio
- Only one system to install into cabin
- High-sensitivity detectors
- Utilises weather proof connectors
- Real-time distance indication
- Compatible with 100 Series monitors and cameras

Specifications

Number Of Sensors	4
Colour Of Sensors	Black
Ultrasonic Frequency	40KHz
Detecting Distance	0.60mt ~ 5.00mt (2ft ~ 16ft 6")
Display Unit	Metres and Feet available
Voice Warning	Optional
Power Supply	10-18VDC
Operating Temperature	-20° ~ 70° RH95% Max
Sensor Response Time	0.5 ~ 0.6 sec
Sensor Mounting Diameter	32mm
