

Safety Through Vision

SVS1T.P2

2 Lead 5 Pin Caravan / Trailer Plug

SVS1T.S2

2 Lead 5 Pin Caravan / Trailer Socket

Product Information

The twin camera input leads in our 100 series range now make it possible to install two cameras on a trailer or caravan in a simple single unit solution.

This is a high quality product featuring cable to reduce electrical noise from affecting the signals, and to reduce electromagnetic radiation that may interfere with other devices.

The SVS1T.S2 features a flush mounting design for neat vehicle integration or a stainless steel bracket (sold separately) can be used to improve mounting options.

Features

- **Secure thread lock system**
- **Flush mount design**
- **Twin camera capability**

SVS1T.BKT

Stainless Steel Mini Socket Bracket

Features

- **Provides mounting for trailer sockets where flush mounting is not convenient**

SVS1T.J

Joining Curly Cord Male to Female

Features

- **Provides flexibility between vehicle and trailer/caravan**
