## SVS2010MTW Full touch screen 10.1" Quad screen Waterproof Heavy Duty

### Product Information

The SVS2010MTW introduces a new evolution of Heavy Duty Screens giving you a full Capacitance touch screen monitor. This monitor is built with an aluminium chassis for added strength while being fully waterproof with an IP69K Ingress rating. The SVS2010MTW is as tough as nails with a 10G vibration and 100G impact rating and multiple screen variations - Quad, Split, Tripple and PIP. Parking Distance settings are adjustable and a wide voltage range from 10-60V with high resolution 1024 x 600 gives a High End image and build quality that can handle our Australian conditions...simply the best you can get.
