

**Safety Through Vision**

## SVS2CB2

# Splitter box, Din Connector 1 Camera Input, 2 Camera Output

### Features

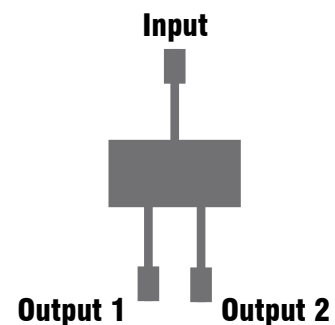

- Mini 4 Din plug
- Socket with shielded cables
- Display one camera on two monitors

### Product Information

The SVS splitter box provides two camera outputs from one camera, making it possible to view one camera on two monitors that may be located at opposite ends of a vehicle or machinery.

The cables used in the splitter box are fully shielded to prevent electromagnetic interference.
