Series

SVSc200RX.40 40Degree (4x Zoom) Round Camera

Standard Camera - view

SVSc200RC.40 - view

Product Information

The SVSc200RC.40 is a narrow vision camera that offers up to 4x zoom when compared with a standard 130Degree view camera. For those applications where you want images to appear more relative in your monitor this may be the camera that offers the feature you require...simply plugs into our 200 Series monitors and get that close view and narrow view not found in a standard camera. Ideal for Caravans and racecar applications where you need images to be closer
