## SVSc200SCMIL IR LED Micro Camera

### Product Information

Built tough like all our 200 Series product - this is our IR LED rotateable camera making it a great option for where you require high quality product to fit in a tight location. Suits the 200 Series monitors and adds versatility to what is a small camera - able to be mounted on its side, Up or Down to suit application. 120g Lightweight Aluminium housing with IP69 means its waterproof and 100G Impact and 10G vibration ratings makes this suitable for those harsh conditions where other systems will fail.
