

SVSMDVR.ADAS

Advanced Driving Assistance System ADAS

Pedestrian Detection (PD) - Lane Departure Warning (LDW) - Speed Sign Recognition (SSR) - Forward Collision Warning (FCW) - SD Recorder

Product Information

New generation ADAS has increased detection assistance to drivers in a busy world. With a modular approach to add all the ADAS components required to cover what is required - simply include what you need in the kit. Pedestrian Detection, Lane Departure Warning, Speed Sign Recognition (with ALARM function when overspeed), Forward Collision Warning and built in SD Card recorder with 1080 HD Camera. System has built in GPS tracking when using 4G/WiFi connectivity so you can live track the vehicle as required. System uses cutting edge AI technology - 1080HD Camera - Built in G Force sensor - can connect to network using WiFi Hotspot or 4G network (optional)

Features

- MultiVolt 10-32vDC
- Built in G-Force sensor
- Smart device connectivity
- Modular system - build as required
- Built in MDVR
- Live GPS Tracking (Hotspot/4G option)
- Cutting edge technology

Specifications

Camera Type	1080P FHD
LCD	3.5" LCD Panel
Video Format	AVI
Voltage	10 - 32VDC
SD Card	1 x 128GB Max.
Newtork	WiFi - 4G optional
Video Format	H264
Video Out	Composite
